More

Below you should enter your database connection details. If you are not sure about these, contact your host.

Database Name

wordpress

The name of the database you want to use with WordPress.

Username

wordpress

Your database username.

Password

.....

Show

Your database password.

Database Host

localhost

You should be able to get this info from your web host, if localhost does not work.

Table Prefix

wp_

If you want to run multiple WordPress installations in a single database, change this.

Dashboard

Welcome to WordPress!

[Learn about the 6.5.5 version.](#)

All Pages

[Add New Page](#)

Author rich content with blocks and patterns

Block patterns are pre-configured block layouts. Use them to get inspired or create new pages in a flash.

[Add a new page](#)

Customize your entire site with block themes

Design everything on your site — from the header down to the footer, all using blocks and patterns.

[Open site editor](#)

Switch up your site's look & feel with Styles

Tweak your site, or give it a whole new look! Get creative — how about a new color palette or font?

Sample Page

This is an example page. It's different from a blog post because it will stay in one place and will show up in your site navigation (in most themes). Most people start with an About page that introduces them to potential site visitors. It might say something like this:

Hi there! I'm a bike messenger by day, aspiring actor by night, and this is my website. I live in Los Angeles, have a great dog named Jack, and I like piña coladas. (And gettin' caught in the rain.)
